

# MAKING PREDICTIONS for the

A person wearing a light blue long-sleeved shirt is holding a large, glowing white sphere with both hands. The sphere is the central focus and has the words "New Year!" written on it in a bold, red, sans-serif font. The background is a soft-focus red surface. The overall lighting is bright and festive.

You may digitally provide the material for one student on an e-learning platform. You may not upload any documents to a drive available for access to all students and parents on your caseload. My products cannot be uploaded to a school website.

# WHAT IS A *PREDICTION*?

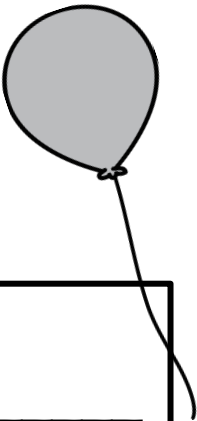

A prediction is what someone thinks will happen. It is a guess or statement that is a forecast about the future.

Sometimes, we make predictions from text. In this activity, we will make predictions about ourselves and/or others. Your predictions should make sense based on what you know about yourself and others, and you should be able to explain them.

For example, a logical prediction for a person who loves a certain author would be that they will read that author's newest book.
